In re application of: Braun et al. **Group:** 2186

Serial No.: 10/713,595 **Examiner:** Tuan Thai

**For: MEMORY AND FORCE OUTPUT MANAGEMENT FOR A FORCE FEEDBACK
SYSTEM.**

1. This action is responsive to amendment filed June 20, 2007.
Claims 61-66 are now allowed. Claims 1-60 have been canceled.

REASONS FOR ALLOWANCE

2. The following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record do not teach nor suggest, *either alone or in combination*, **all** the limitations of the amended claims of the current invention (claim 61). Particularly, the prior arts of record do not teach nor suggest all the combined limitations in each claim separately including a computer-readable medium on which is encoded a computer program, comprises code for creating a representation of a haptic feedback device memory in a computer memory; code for storing a haptic effect in

a cache allocated in the computer memory; code for determining whether the haptic feedback device memory can store the haptic effect by examining the representation of the haptic feedback device memory; and code for sending the haptic effect to the haptic feedback device memory. In light of the foregoing, claim 61 of the present application are found to be patentable over the prior arts.

Claims 62-66 further limit the allowable independent claim 61. These claims are therefore allowable for the same reason as set forth above.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
